

2025 EXHIBITION OVERVIEW

Green Consumer Lifestyle

Showcasing eco-friendly products and lifestyles in fashion, food, housing, and leisure.

ESG / Green Policy

Introducing corporate ESG solutions, government policies, and climate crisis responses.

Carbon Neutrality

Highlighting carbon-neutral technologies, environmental and mobility solutions, and green transition programs.

Resource Circulation Solutions

Featuring plastic resource circulation and next-generation eco-friendly packaging solutions.

2025 POINT

NEW Pavilion

Everything about eco-friendly lifestyle, "Clothing / Food / Housing / Leisure"

ECO Life Pavilion

From fashion to food, housing, and leisure, this space introduces eco-life practices that can be implemented in everyday life and presents products and solutions that open possibilities for a sustainable lifestyle.

NEW Pavilion

Recycling Storytelling Across the Full Cycle

plastic recycle Pavilion

A dedicated space where leading companies in the plastic resource cycle—from collection and sorting to reuse and material development—exhibit their products and technologies. The exhibits are presented in a storytelling format that highlights the entire plastic lifecycle.

SPECIAL ZONE

Essential sustainable packaging solutions

next generation packaging Pavilion

A space that showcases sustainable packaging solutions, highlighting the latest trends in eco-friendly packaging materials and technologies.

SPECIAL ZONE

The First Step Toward Corporate ESG Implementation!

Green factory conversion Pavilion

A comprehensive space combining exhibition, business matching, and consultation, based on "Smart Eco-Factory Construction" and the "Win-Win Cooperation Demonstration Program." It emphasizes carbon-neutral ESG policies and supports companies in their green transition journey.

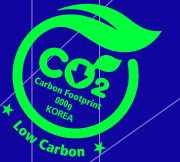

No Disposable
Supplies Allowed

Please bring your own tumbler! Water stations are installed inside the exhibition hall, and you can also wash your tumbler there.

This guidebook is made from eco-friendly paper certified

For environmental protection, ESG-ECO EXPO KOREA encourages visitors to use the online guidebook by scanning the QR code.
